The following rules detail safe operational guidelines for the inflatable equipment you are leasing from Mr. Bounce, LLC. To ensure safe operation of the inflatable, it is in your best interests to have these rules read aloud by a company representative. Further, you are encouraged to direct any questions you may have about the operation of the inflatable to your representative from Mr. Bounce, LLC before you begin use of the equipment.

Supervision: The safety of the children depends on you. Your personal supervision is absolutely required at all times. As the adult supervisor, you should position yourself in close proximity of the entrance to the ride and be prepared to assist riders when they enter/exit the ride.

Installation: Do not remove the inflatable from the area where it was installed. If the inflatable unit moves, pull it by one of its corners back to its original location of installation. Keep the inflatable unit away from swimming pools and other sources of water at all times.

Inclement Weather: Once there is a threat of inclement weather, including strong winds (at or in excess of 20 mph), thunderstorms (especially when lightening is present), or severe cold weather (below 40 degrees), children should immediately exit the inflatable, the blower should thereafter be switched off and removed, and the unit allowed to deflate.

Deflation: Should the unit begin to deflate, do the following: First, have all children exit the unit immediately. Next, if the motor has stopped, make sure that it has not been unplugged. If the motor is still running, check the air intake on the side of the motor for blockage, and check both blower tubes on the inflatable unit to make sure that they are tightly tied off. Never allow riders in or on a partially inflated unit.
